CEO MESSAGE ▶▶▶

Dear Colleagues,

Welcome to our second edition of Genee India Quarterly Newsletter. Since our last issue, there has been considerable amount of developments happening at the Genee Family.

The development of Genee Sense as a portable, flexible interactive whiteboard with the ability to work on any surface is very exciting. As the Indian classroom environment provides its own challenges, the Genee Sense portable IWB enables teachers to teach in any environment as long as there is a smooth surface upon which to write or interact with.

The Virtual G-Pad is another first from Genee World. This enables our ClassComm Software to be used from any laptop or portable device such as an iPhone or iPad. The Virtual G-Pad is now also available as an "App" from the Apple website for downloading. This will allow formative and summative assessment not only to happen within a classroom but from remote locations as long as there is an internet connection. "Distance learning" with assessment using any device becomes a reality with Virtual G-Pad.

Our other newly launched products include the Genee View Interactive projector which is available in normal mode as well as short throw and ultra short throw mode. This wondrous Interactive projector enables any surface via the projector to be interactive utilizing revolutionary technology.

Best of all, our Genee team is looking forward to welcome you to show your presence with Genee at International Exhibition & Conference to be held at WORLDDIDAC India 2011. Come, be a part of our hourly presentations and demonstrations of all our ICT products. We look forward to seeing you there!

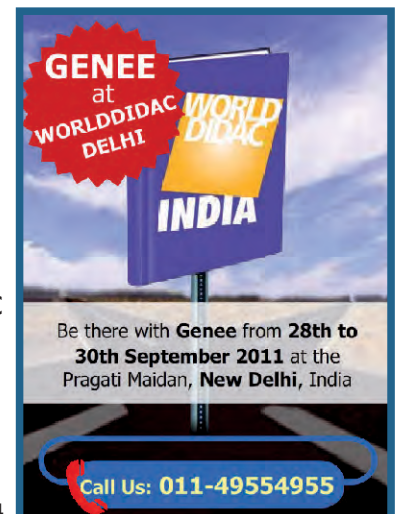

Warmest Regards,
Ranjit Singh, Global CEO

Visit Genee Solutions at WORLD DIDAC India 2011

We are as excited as you; to be a part of WORLD DIDAC India 2011 again this year with our incredible range of ICT and AV products including Interactive Whiteboards, Response systems, Projectors, Touch Screens, Graphic Tablets, Visualisers, Educational Software, digital signage solutions, k-12 Content and a lot more...

GENEE SOLUTIONS IS READY TO LAUNCH IMPRESSIVE NEW TECHNOLOGIES AT WORLD DIDAC INDIA 2011

This News Bulletin provides you with Genee Solutions New product Launches, Latest Technologies, Important Updates, and everything about our forthcoming Exhibitions and Conferences.

NEW LAUNCHES ►►►

VIRTUAL G-PAD

An Intelligently Designed Response System App is finally here!

Virtual G-Pad is the latest addition into the Genee's family of Response systems. Now, you can get all the features of our market leading ClassComm response system software, without the

need for our Genee Pad, IQ Pad or Pebble handsets. You can get this wondrous Virtual G-Pad on your PC, Laptop, iPad, iPhone or iPod Touch. Moreover, our brilliant app is easy to carry like a mobile phone and can be easily controlled by a presenter or a teacher using a Virtual G-Pad enabled copy of ClassComm 4.1.0 (or higher).

Our vivaciously deigned Virtual G-Pad enables you to reply to questions without being physically present during classroom lectures or presentations. Any one; who wants to participate in the live presentations; can do so by accessing Virtual G-Pad app on their Computer or Smartphone with an internet connection.

Best of all, you can download this incredible app simply by visiting the App Store and search for 'Virtual G-Pad'; if using any iOS handset(iPhone,

iPod Touch and iPad) or by visiting at www.virtualg-pad.co.uk; if using a PC or laptop.

BENEFITS OF VIRTUAL G-PAD

- Platform independent, can be run on any operating system such as Windows, Mac OS and Linux.
- Supports leading web browsers like Internet Explorer, Mozilla Firefox, Google Chrome and Opera.
- Educate students using online tutorials and assist staff internally.
- Quickly add and update content.
- User friendly with a very comprehensive design.

GENEE SENSE

It's time to turn any ordinary whiteboard or flat surface into the state-of-the-art interactive workplace!

Genee Solutions is pleased to launch incredible and aesthetically designed ICT resource- Genee Sense; that can instantly give interactive capabilities to any existing whiteboard or flat surface. It is smartly optimized for both classroom lectures and corporate presentations.

With Genee sense, teachers and presenters can start teaching and presenting interactive lessons, videos, audio, websites and a lot more on their ordinary whiteboards. They can simply plug-n-play Microsoft office annotations tools and start annotating

on the top of Power Point, MS Words and Excel. That's not all it offers, it is completely compatible with 32 and 64-bit XP, VISTA, Win-7, Linux and MAC operating systems.

Best of all, Genee Sense is a complete budget friendly solution as it suffices the needs of those users who can't buy expensive Interactive Whiteboards but still feel the need to infuse latest technologies into their system.

GENEE FUTURE CLASS

Is Your School Ready to Explore the Future of Education?
Genee Future Class is ready to take you there!!

Genee Future Class is a complete classroom solution perfectly designed to take your students into the world beyond textbooks where what they learn with real time videos, animations, images and graphics becomes more than answers on a textbook.

It becomes a part of their experience!

Enriched **CBSE** and **NCERT** based Content including:-

- Text and Graphics
- Images
- Audio
- Real Videos
- Animation(2D and 3D)
- Puzzles & quiz
- Graphs & charts
- Experiments and tricks

Best of all, Genee Future class is a web based application which can easily work on any kind of platform. A complete classroom solution including:-

- Role based navigation system
- Personalized accounts for all students, parents, faculty and administration department

- Secure authentication system
- Online and offline accessibility
- Getting access at different places- classrooms, computer labs, library, staff room or anywhere in Wi-Fi campus.

A comprehensively designed solution for K-12 education with special focus for competitive exam preparation including NDA, Engineering(IIT,AIEEE), Medical or Dental(AIIMS, AIPMT)

GENEE SAS (School Administration system)

Making Schools Automated

Genee Solutions also presents a highly integrated **SAS (School Administration System)** for the automation of all the internal and external processes of Educational Institutions. **SAS** is a complete school administration system which is appropriately designed to help in improving Management, Teachers, Students, Parents and Alumni.

Since most of the educational institutions like schools, colleges, universities are becoming increasingly complex day by day, they deal with host of activities like admissions, placements, finance management, academic management, administration management, library management, mail and SMS integration and many other internal processes therefore they need a computer aided administration system which could manage all these operations in smooth and impressive manner.

SAS does it all!

It's smartly designed to fit into any complicated infrastructure!
