

A complete **Budget Friendly** Interactive Projector Module!

GENEE LINK

Works with any projector

The **Genee Link** is a stand-alone interactive module. Once installed, it gives any projector interactive capabilities. Simply calibrate the camera module with your projector, install the LightPen II software, and begin interacting.

Versatile

Compatible with all projector brands. Interact on any flat surface.

Innovative

The Genee Link has all the features and benefits of the renowned Genee View series.

Precise

Interact in real-time without inconvenient delays.

Economical

The Genee Link provides interactivity to institutions which already have projectors, without major investments, and builds on the existing hardware.
