

Helps teachers plan, monitor and manage their lessons direct, from their computer

“ GeneeSync synchronises the computers in the class, so teachers have complete flexible supervision of all pupils, ensuring the teacher retains full control of their class at all times. ”

Key Features

- Teachers retain control of their class, allowing increased learning
- Ensures a safe online environment for students - every child matters
- Discreetly monitor students computer use as a class, selected individuals or group
- Remotely, Lock or shut-down computers, maximising the classes attention levels
- Prevent incorrect use of school computers
- Alerts teacher to potential disruptive behaviour
- Enhances personalised learning - pupils are able to work at their own pace and level without class interruption
- Simple and quick to set up, Windows and MAC compatible
- Live and recordable, supervision of your students computer learning
- No need for worksheets, send tasks and information directly to your students computers, reducing photocopying tasks
- The teacher controls the content, pupils are able to view on their screens, so students can remain focused on lesson objectives
- Encourages student led teaching, allowing teachers to pass control to pupils demonstrating their work to the rest of the class
- Teachers can access information instantly using the auto pop-up GeneeSync tool bar
- Create and save accepted online resources
- Set up saved classrooms according to seating arrangements

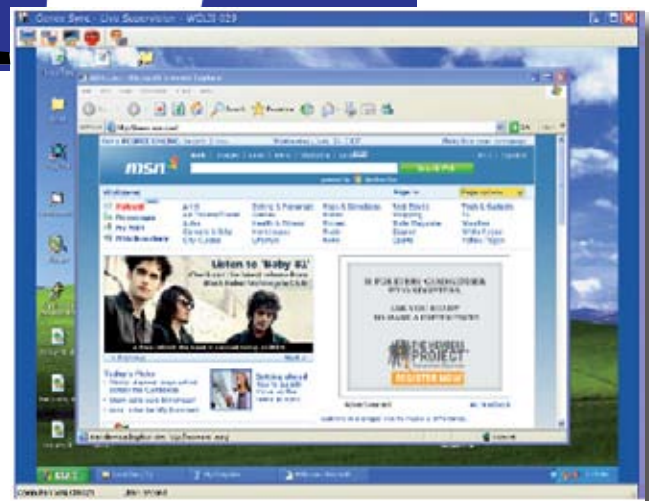

Control your students computer use from your own PC

Classroom Management

Creates classrooms and manages students

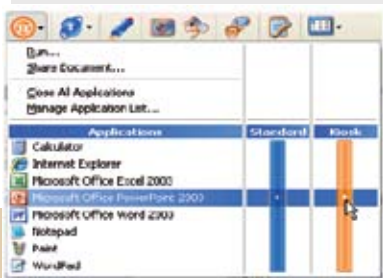

Live Supervision
Monitor students during live sessions

Web Lock

Prevent access to inappropriate resources inappropriate

App-Manager

Quickly change application that the pupil can use or view

Perfect partner for
the Genee Pod desk

How can Genee Sync work with Genee Pod desks

- The teacher can control what content the pupils are viewing on their screens, so the students can remain focused on the lessons objectives
- Teachers can display work to be done directly to their computer screens so that time isn't wasted photocopying worksheets
- If a pupil produces an excellent example of work, this can then be showed to the whole class, praising the good work of the student
